

# Soji™

## Task Chair

From the second you sit down, Soji brings your body and mind into sync—so you can enjoy healthier levels of performance, no matter where you work. Soji is a highly-adjustable task chair with more ergonomic options than most in its class. Designed for a wide range of people, spaces, and modes of work, Soji supports employees with effortless comfort and efficiently satisfies workplace strategies for better well-being.

HAWORTH®

## Thoughtful Design and Informed Ergonomics

Built on a foundation of research, knowledge, and expertise around seating for people at work, Soji embraces the relationship between the human body and chair. Over three decades of research and extensive user testing ensure Soji delivers exceptional comfort to just about any body.

### Features

Fit for a variety of applications—from touchdowns or conference rooms to task seating for individual workstations—Soji offers more options for customers who are challenged by the need to support their employees' well-being on a budget.

**Fits a wide range of users** – Offers comfort and ergonomic support for the 5th to the 95th percentile of users—from 5' tall and 90 lbs. to 6' 4" and 275 lbs.

**Simple ergonomic adjustments** – Easy-to-operate controls provide individualized ergonomic control and comfort to promote well-being.

**Height-adjustable patented lumbar support** – Lets users position the lumbar pad to fit the natural curvature of the spine for improved lower back support.

**Waterfall seat edge** – Minimizes pressure on the back of the legs for comfort and good circulation.

**Multiple arm options** – Available in fixed, height-adjustable, 4D, and armless options.

**Intelligent synchro tilt** – Synchronized tilt with unlimited tension control to offer a broad range of users a comfortable reclined posture.

**Forward tilt** – Allows the seat pan to move downward from its initial position, for varying posture throughout the day.

**Back lock** – Allows the chair to lock in the upright position to support more workstyles.

### Colors, Materials, Finishes

With its inviting design and soft edges, Soji provides one of the greatest ranges of design freedom for task seating in its class. It features a knitted mesh back available in 11 colors, one standard trim color (Black), and two optional trim colors (Fog and Snow). Base options include polished or painted aluminum, and plastic.

### Certifications
