

BOS

WE ARE YOUR PARTNER

.....

The process of moving or refreshing your space is complex. BOS works directly with Schneider Electric Real Estate team on projects alongside leadership to ensure that when you or your customer walks into a Schneider Facility no matter the location they can recognize that this is Schneider. By unifying the space, finishes, materials, furniture selections, and overall space we can accomplish this. BOS has a dedicated Schneider Electric team that all have a background in design and project management to fully service Schneider Electric for all of North America.

BOS has secured special pricing on behalf of Schneider Electrical with the top commercial furniture vendors furniture vendors and that all Schneider Electric locations, no matter what size order, can take advantage of buying power.

All furniture presented is commercial grade, vetted for safety, approved by leadership, and includes some of the best warranties in the industry.

Contact us anytime at schneiderelectric@bos.com or visit <https://www.bos.com/vip/schneider> for more information and resources.

Fern Task Chair

Sit Well, Work Well, Feel Well

.....

Haworth Fern chair has extensive scientific-based ergonomic research and provides innovative design and promotes the correct shape of your back. It supports over 90% of all human bodies. This chair has a 10 year warranty on parts and labor.

Three key items on the Fern chair that set it apart are:

1. Wave Suspension back is designed to cradle the user and support the entire spine with lumbar/pelvic area all the way up to thoracic (upper back).
2. Edges are soft and pliable on the seat and back and provides movement with the user throughout the day, the soft edges prevent pinch points.
3. Easy to use – all of the adjustment handles are at your fingertip while sitting in the chair.

Sit & Stand

Next generation of portable desk solutions

Quickstand Eco is the next generation in portable sit/stand desk solutions. Sleeker, easier to use and comprised of more sustainable materials than ever before, our adjustable standing desk solutions are a vast improvement over the current generation of sit/stand surfaces. Quickstand Eco features simple setup, portability, and near effortless adjustability – transforming ordinary desktops into healthy, active workspaces. Includes integrated monitor arms and wire management for safety.

FEATURES

Sit/Stand Revolution

QuickStand features an innovative counterbalance mechanism that enables users with fixed-height computer desks to transition from sitting to standing positions with ease. Its effortless functionality encourages users to be active and integrate movement into their days, which is vital for health.

Minimal Aesthetic

A sleek design with a minimalist aesthetic, QuickStand seamlessly integrates cable management, mechanisms, and moving parts into its chassis. Its minimal footprint frees up space on home office furniture, traditional work surfaces, temporary hot desks and collaborative workstations, allowing QuickStand to fit into any work setting.

Ultimate Stability

The QuickStand workstation is robustly designed to ensure the keyboard platform remains stable with no bouncing when the user types. Available in a number of configurations including dual monitor setups, QuickStand is the perfect co-worker for any space.

Quickstand Eco Laptop only - \$311.50 available in Black or White

Quickstand Eco Single Monitor - \$363.50 available in Black or White

Quickstand Eco Dual Monitor - \$415.50 available in Black or White

Dual Monitor Arm, crossbar with M/Connect docking station shown in image

MONITOR ARMS

PROPER ERGONOMIC HEIGHT OF YOUR MONITOR

Monitor arms allow the user to work in a healthy posture by seating the monitor at an optimal distance and height. Collaboration is made easier through effortless screen sharing and increased desk space. The most scalable system on the market can easily be reconfigured as needed by adding or removing monitors and customizing to our every need. Our monitor arms not only promote a clutter-free workspace, they also support a healthier, more ergonomic working posture. Users are encouraged to align the monitor at the correct height for them, which helps prevent eye and neck strain. When paired with **M/Connect™** the first-ever integrated adjustable monitor arm base and docking station of its kind – they are even more conducive and perfect for hot-desking environments.

FEATURES

Innovative Design

The M/Flex multi-monitor arm system allows the user to simply swap attachments to suit their changing technology needs while retaining a sleek, minimal aesthetic. Manufactured primarily from recycled aluminum, M/Flex is as recyclable as it is beautiful.

Greater Versatility

M/Flex offers the most versatile, modular multi-monitor system available. By lifting up to six monitors—up to 20 lbs. each—off the work surface, M/Flex frees up valuable desk space, helping to preserve the existing office aesthetics. M/Flex's removable 180-degree stop also protects walls and panels.

Unparalleled Customization

M/Flex offers effortless adjustment and enables easy, spontaneous configurations. With its plug-and-play customization, M/Flex allows users to add monitor arms, attachments and accessories as needed. M/Flex is the perfect addition to the modern and constantly evolving workspace and, when paired with the M/Connect™ monitor arm base, users can completely eliminate cable clutter and gain easy access to USB ports and high-speed charging.

THE HEART OF IT ALL

IT'S ALL ABOUT YOU!

The keyboard is the heart of the ergonomic workstation. Reach and vision drive your posture, an articulating keyboard system allows the user to sit in a healthy, neutral posture through bringing the keyboard and mouse to the user. A well-designed articulating keyboard system offers protection from carpal tunnel syndrome, neck pain, back pain, and musculoskeletal issues.

FEATURES

Effortless Use

Humanscale patented keyboard systems have effortless height and angle adjustment. Promoting negative tilt keying, the keyboard platforms will not go into a positive tilt.

Durability

Humanscale keyboard trays are solidly anchored to any work surface, and shape to specific user needs. Hypoallergenic Gel palm supports offer height and durability, and are designed to be compatible with human skin.

Customization

Humanscale offers three negative-tilt keyboard systems, from 5G to our latest 6G, which combines easy dial-a-tilt and height adjustability with the strongest, most stable arm on the market. Humanscale's under desk keyboard trays come in many different configurations, including left/right customisation, to support any user need.

6G 900 90 – Black Keyboard Tray \$183.30

6GW 900 90 – White Keyboard Tray \$183.30

Lets walk & work

Get moving towards a healthier you

Burn calories, decrease stress levels, and reduce low-back pain, all while multitasking while you walk and work. The LifeSpan Treadmill desk combines our most popular walking treadmill desk and an electric-height adjustable standing desk, making it a great solution for individual or multiple users ranging from office teams, to conference rooms, and training classes.

With the one-touch height adjustment, and a height adjustment range of 27.5" to 50.5" it's simple to use and meet the various height needs for users of all sizes. All the all-new lower height range makes it possible to place a Bosu Ball or stool on the treadmill transforming the treadmill desk into a seated desk in just seconds.

CONSOLE

[Click to enlarge](#)

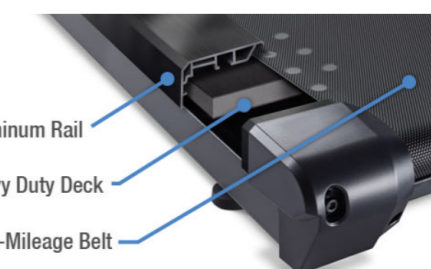

- Personal Settings** Tailor the treadmill desk to meet your needs. Set your preferred maximum speed to either 2.0 or 4.0 MPH, silence beeps and alerts, resume previous speed, switch units of measure, and more.
- Intelli-Step™** Step counting feature works like a pedometer and counts your steps while you walk.
- Intelli-Guard™** Your safety is important to us. Intelli-Guard automatically pauses the walking belt when you step off.
- Bluetooth** Wirelessly sync your activity data to an iPhone or Android smartphone using LifeSpan's free Active Trac app to track your progress over time.

LEGACY OF INNOVATIONS

- Integrated Step Counting
- Intelli-Guard™ Safety Technology
- Customize Personal Settings

Business savvy and wellness ready, LifeSpan technologies are devoted to improving your experience. Onboard Intelli-Step technology detects each foot step taken, keeping you aware of your daily step count. The integrated Intelli-Guard safety feature ensures the treadmill only operates when you are actively walking, supporting a safe work environment.

- Aluminum Rail
- Heavy Duty Deck
- High-Mileage Belt

BEST-IN-CLASS CONSTRUCTION

- High Mileage, Maintenance-Free Habasit® Belt
- Wear Resistant, Black Anodized-Aluminum Side Rails
- 1" Thick Extended-Life Deck

Built for hard-working days and productive nights, the TR5000-DTS is made to power through thousands of hours of effective, worry-free use. Entirely upgraded, the treadmill base is equipped with a high mileage, maintenance-free belt, 1" thick reversible walking deck, anodized-aluminum side rails, and a dependable 3.0 HP motor. Service and maintenance are a thing of the past; simply roll the treadmill under your existing standing desk and begin walking.

FEET ARE KEY

Elevate to be at the proper posture

Foot Rockers get feet moving for health and comfort. Offering relief from prolonged, static sitting by encouraging gentle rocking of the feet, they engage lower leg muscles to increase healthy circulation. Designed to be the perfect accessory to an ergonomic work environment, the FR300 enhances the experience of the ergonomic workstation. The FR300 Foot Rocker with its ball bearing rollers, encourage users to move more by rocking their feet. This rocking motion uses the lower leg muscles to increase healthful circulation. In addition, the FR300 Foot Rocker offers three-inch height adjustment for custom positioning. Our Foot Rocker also raise the feet to relieve pressure on the lower back when sitting.

FEATURES

Healthy Rocking

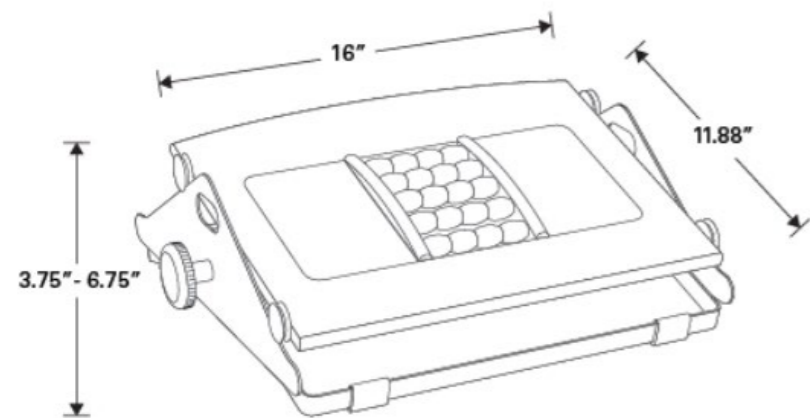

Studies have shown that moderate movement throughout the day promotes circulation and increases productivity. By stimulating the lower back, leg muscles and feet, the FR300 Foot Rocker increases circulation and contributes to a sense of wellness.

Adjustable Foot Massage Therapy

Featuring ball-bearing rollers and up to three inches of height adjustment, the FR300 Foot Rocker brings flexibility and personalized massage therapy to the workspace by encouraging rocking throughout the day.

Durable Construction

With a platform built from solid hardwood and phenolic side supports, the FR300 Foot Rocker incorporates thoughtful design considerations into a timeless aesthetic.

FM300 Foot Machine \$65.41

Email schneiderelectric@bos.com for more options!

Lights On!

See into the light with a smart light

With cutting edge advancements like MCX LED technology, the Element Vision task light offers a generous foot-print of glare free illumination in a single light source – not commonly found in LED computer lamps. Element Vision provides the same effortless functionality found in all Humanscale task lights, moving fluidly without the need for knobs, switches, or springs. Where other LED computer lamps struggle to offer the warm light that prevents eye straining and offers ergonomic comfort, Element Vision is able to provide a high color rendering index (CRI) of 89 while also delivering 3000K illumination. With effortless adjustment and innovation heat management, Element Vision is one of the most advanced and intuitive LED task lights available.

FEATURES

New Technology

Advanced MCX LED Technology provides a large footprint of ergonomic light from a single light source, producing an even plane of illumination creating a glare-free, single shadow work environment.

Intelligent Efficiency

Element Vision's custom dimming capability allows for seven settings of light intensity. A motion sensor not only provides additional energy savings but remembers user settings, allowing the work environment to retain its levels of illumination.

Effortless Adjustment

An internal counterbalance provides effortless, one-touch positioning while also allowing for quick storage when not in use. Element Vision has an impressive reach of up to 28".

EVEBS \$175.56 – Silver Vision Light 7 Watt LED with Dimmer & Occupancy Sensor

EVEBW \$175.56 – White Vision Light 7 Watt LED with Dimmer & Occupancy Sensor

NTLGG – Neat Tech Large Grey - \$71/02

NTLGR – Neat Tech Large Red - \$71.02

Out of the way

Hide those cables, keep them safe

NeatTech is an innovative cable management solution that complements our award-winning height-adjustable table as well as other workstations. NeatTech stores power strips and cables neatly and safely off the floor to protect technology and restore order to the workplace.

FEATURES

Lightweight, Heavy Duty

The mesh design means NeatTech is lightweight but incredibly durable. NeatTech can support a total weight of 10 lbs and comes with a 15-year warranty.

Simple Install

NeatTech comes with a simple installation template provided on its packaging for quick and easy installation to any workspace.

Fit for You

NeatTech was designed for Humanscale's award-winning height-adjustable Float table, but works just as well with other workstations. NeatTech comes in three sizes: mini (24" long x 4.5" deep x 4" wide) small (38" long x 4.5" deep x 4" wide) and large (48" long x 4.5" deep x 4" wide).
