PROJECT OVERVIEW

AOI was hired to provide design and space planning services prior to furniture planning. We worked closely with Fiskar's Design Team and outside partners to help create a space that was reflective of their great heritage and also the innovative and iconic brand. BOS/AOI then provided all furniture within the space, carefully selecting pieces that would be as classic as the orange handles on their scissors. BOS/AOI installed 268 workstations, 67 Private Offices, as well as Furniture and Soft Seating for the Break Rooms, Training Rooms, Conference Room furniture, Labs and Mail Room. The result is a striking, timeless and functional workspace that Fiskars is thrilled to call home.

PROJECT DETAILS

- PROJECT SIZE**
108,000 Square Feet
- ARCHITECTURE AND DESIGN**
Kee Architecture
- PROJECT MANAGEMENT**
Newcomb Construction
- PRIMARY MANUFACTURER**
AIS, OFS, JSI, Allemuir, and Urban Evolutions
- PROJECT DATE**
October 2016

CLIENT PROFILE: FISKARS

Fiskars Corporation employs 4,100 employees across multiple brands and makes products available in over 60 countries. The new headquarters in Middleton, WI offers Office Space and Research and Development Space. It is Fiskars' North, Central and South American headquarters. At Fiskars, we believe that all things, even the simplest, can be made better and smarter. We start by studying the things you love to do and the way your body responds. Then we look at all the arenas of modern life and develop new solutions that are applied in unexpected ways. After rigorous testing to validate our designs we deliver the tool to you, helping you solve everyday problems and create a better life.

Jessica Pagel at AOI/BOS has successfully taken on this project and has yet allowed Fiskars to have full control of the outcomes. I know that this has been anything but a simple project and having her as our partner has certainly made the entire process less daunting than I originally imagined. Jessica is truly an incredible professional and I have more than enjoyed the time well spent with her and AOI/BOS on this project

~ Emily Lyle
