PROJECT OVERVIEW

Panoramic views, angular walls and large columns designed by acclaimed Chicago architect Harry Weese serve as the back drop to staff, training workshops and corporate meetings. BOS worked closely with Ratio and U of I Capital Programs to incorporate design elements and color palette into the mix of work, collaborative, lounge and meeting spaces to bring the Urbana-Champaign spirit to Chicago. Color renderings and specifications were created utilizing Canvas, Haworth's powerful visualization tool, and allowed for quick and accurate understanding of the final product.
