PROJECT OVERVIEW

BOS was hired to provide furniture ideas for a space plan provided by the customer's architect WARE MALCOMB.

We worked closely with Railway Supply Group's CEO and Vice President of Finance to fully understand what they wanted to achieve in their new office. This would be the first time in almost 30 years that the client upgraded their furniture. The space reflects the great heritage from generation to generation.

BOS provided all furniture within the space, from the executive offices and boardroom to their work café and town hall.

BOS installed 22 workstations, 17 Private Offices, 300 Linear Feet of Demountable Walls, as well as Furniture and Soft Seating for the Break Rooms, Training Rooms, Conference Room furniture and open collaborative spaces.

The result is a clean, crisp, timeless and functional work environment that supports the company's culture.

CLIENT PROFILE: RAILWAY SUPPLY GROUP

Railway Supply Group is a diverse family of railway equipment supply companies that has served the industry for well over half a century. Featuring a large portfolio of high the quality products RSG is proud to offer superior service to their customers. With Railway Supply Group companies as partners, railway industry businesses can become even more innovative and efficient.

Learn more about Railway Supply Group at www.railwaysupplygroup.com

"BOS was instrumental in helping us define our vision, develop a cohesive design and understand our furniture options for our building project. The sales and design team made the process to create a space that is truly beautiful both easy and fun. They also introduced us to complimentary businesses to help us elegantly finish our space with both digital and physical signage. The end product far exceeded our expectations and those of our employees."

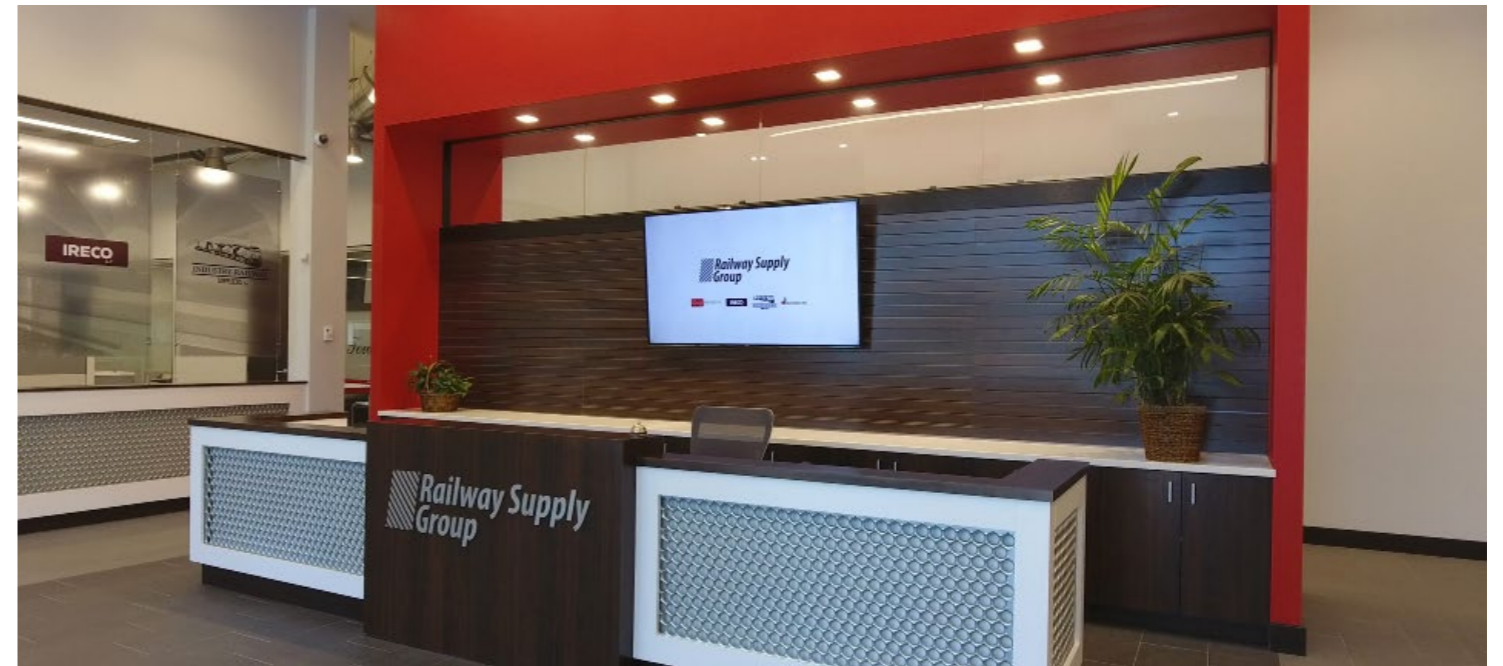

~ Michael McCammon Vice President of Finance
Railway Supply Group
