WELCOME TO WORKSPACE DIGITAL

It is my pleasure to introduce our newest playbook showcasing 12 inspiring technology solutions.

Workspace Digital is following in the seventy-year BOS tradition of service excellence by providing our clients with a full line of value-adding technology solutions designed to improve the way workspaces and meeting rooms function.

Let us show you how these handpicked technologies and our robust portfolio of custom meeting room solutions can integrate seamlessly into your new or existing spaces.

Sincerely,

JOHN BOGAERTS
Vice President, Technology Integration

BLUESCAPE

VISUAL COLLABORATION WORKSPACE

You deserve a workspace that lets you collaborate, inspire and create at will, where you're given the tools to reinvent the future, however you envision it.

Bluescape is a visual collaborative workspace designed to help people and enterprises produce great work with cloud-based software that is accessible wherever you are. A subsidiary of Haworth, Bluescape was conceived in 2010 when Haworth partnered with Obscura Digital to create a new way to interact with large data sets. Today, Bluescape works with some of the most creative enterprises in the world.

Look Your Project in the Eye.

- Capture, organize and share inspiration
- Handwrite and sketch your ideas directly on screen in real time
- Drop pins for easy navigation

Stop at Nothing.

- Import media, documents, designs and third-party files for everyone to access
- Share your screen with team members for fluid collaboration and presentations
- Use audio/video conferencing to connect your global teams in one workspace

Work Like Clockwork.

- Visualize the evolution of your thinking during presentation
- Monitor the entire, detailed timeline of your project at any moment
- Flatten the learning curve for new users with all project information in one workspace

See Beyond the Desktop.

- Mobile access via iOS® or Android®
- Browser-enabled workspaces are accessible from any computer or tablet
- High-resolution, multi-touch displays can be mounted or built-in to conference rooms
- Customizable screens can be configured in a range of formats to fit your space

HAWORTH® WORKWARE

WIRED AND WIRELESS CONNECTIVITY

Adaptable technology solutions for collaboration and sharing in a digital world. The Workware product line makes it easy for groups to connect, share and keep ideas flowing.

Workware Wireless

Supports simultaneous sharing and communication for multiple users in real time. Wireless and secure at an enterprise level, content sharing is simple and intuitive regardless of participant's physical location or device used.

Workware Cabled

Power and sharing capabilities that you expect in a collaborative space, all in a simple and well designed interface.

Workware View

Workware View products accommodate a variety of sizes of monitors, offering mobile easels, wall mounts, and shrouds to easily combine with other Haworth furniture and for a clean aesthetic.

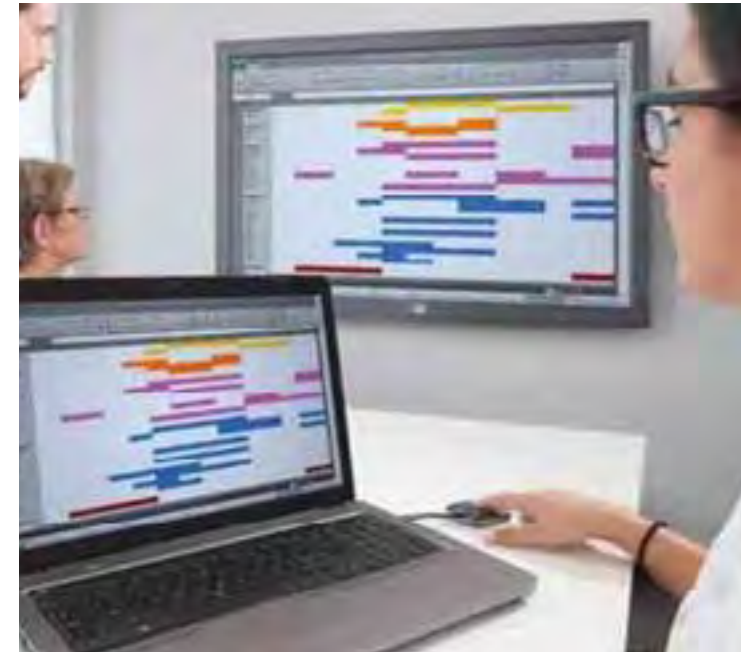

Works on iOS and Android

Laptop? Tablet? Smartphone? No problem.

Share your content – whatever device you're using. Connect the Button to share from your laptop. Or use the free ClickShare app for mobile devices – available for Android and iOS.

- Standalone operation, not dependent on your network
- Smooth video sharing (Up to 30fps)
- Perfect simultaneous audio
- Extended desktop and mirror mode supported
- No software to download on laptop

CLICKSHARE

WIRELESS PRESENTATION SYSTEM

ClickShare wireless presentation system makes screen sharing easy with no installation, no messy cables and no technical hiccups.

Simply share your laptop or mobile device on a main presentation screen with the click of a button. Welcome to quick, confident sharing.

91%

OF IT MANAGERS SAY RESOLVING TECHNOLOGY PRESENTATION PROBLEMS IS A PRIORITY FOR THEIR BUSINESS.

InFocus MONDOPAD

COMPLETE VIDEO CONFERENCING & COLLABORATION SOLUTION

Mondopad is an elegant all-in-one touchscreen collaboration system for efficient face-to-face collaboration with people anywhere. Video conference, whiteboard, share data, and more.

- Multi-touch 4K or HD display, available with capacitive touch
- Flexible and expandable with built-in Windows PC
- Native HD video calling and data sharing
- Interactive digital whiteboard and document annotation
- Share, view and control from your computer, tablet or smartphone
- Full version of Microsoft Office, wireless keyboard and mouse included
- Available in sizes ranging from 57-85 inches

Set Up Every Room in Minutes

All you need is HDMI, Internet and the App.

All-in-One Video Calling

Featuring in-room widescreen cameras that integrate with your laptop or mobile device.

No More Complaints About Audio

Powered by crisp, clear Dolby Voice audio hardware.

Security That Doesn't Get in the Way

128-bit AES encrypted with single sign-on and domain based security.

Predictable Pricing for Every Budget

Priced per room with unlimited meetings and hosts. No user or usage fees!

SIMPLE VIDEO CONFERENCING & SCREEN SHARING

Highfive is a video conferencing, wireless screen projection and remote screen sharing solution for all your meeting rooms. Plus, the Dolby speaker functions as an exceptional conference phone. Highfive combines hardware with cloud software to make communication easy.

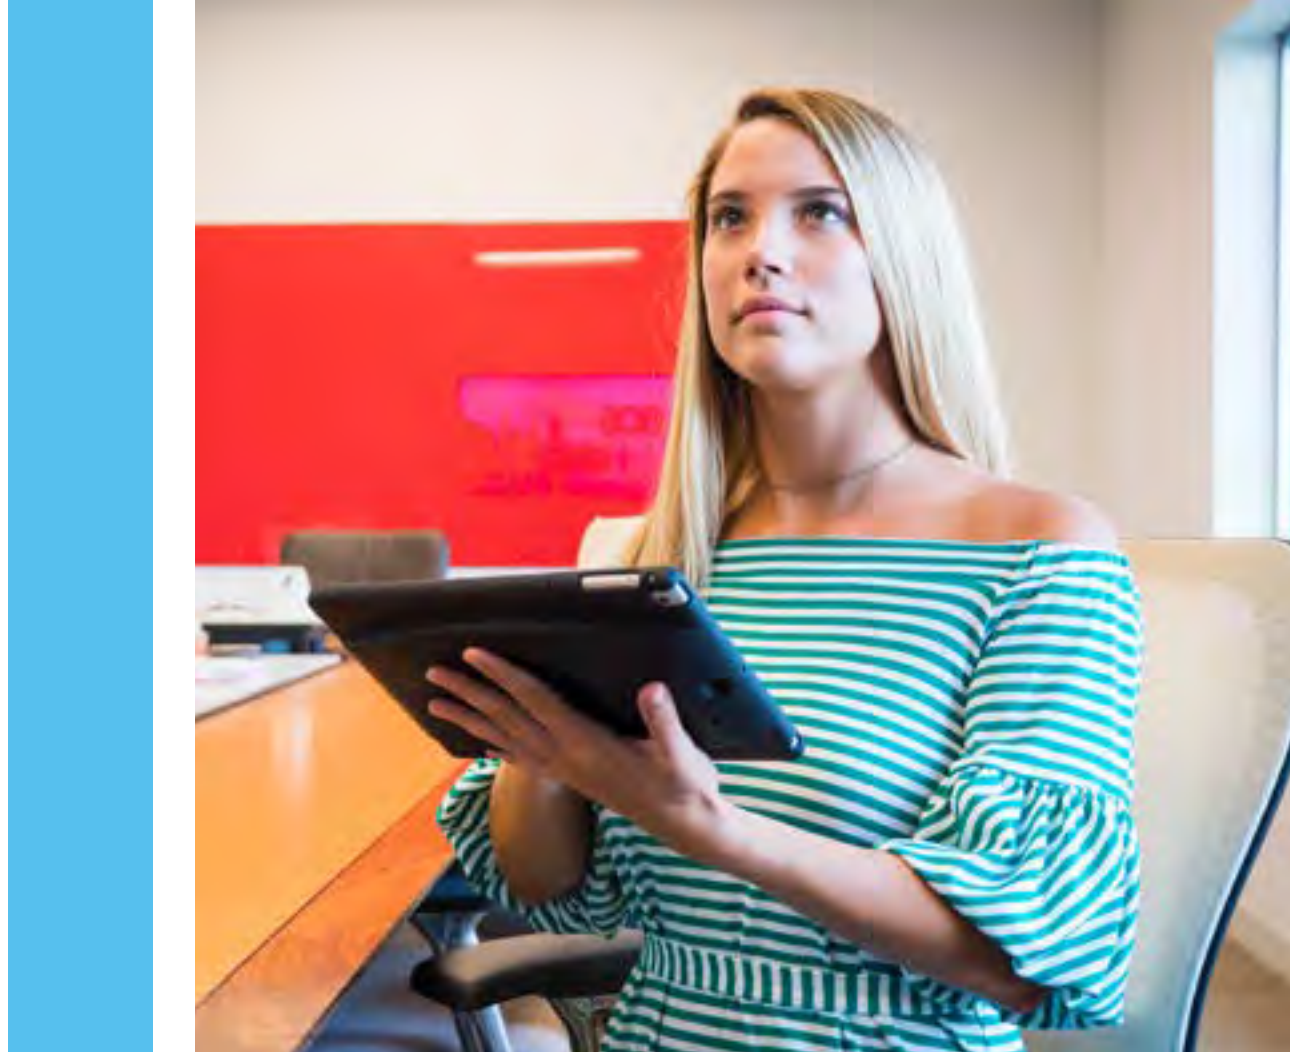

**Welcome Visitors. Recognize Employees.
Communicate Effectively. Strengthen Your Brand.**

- Publish a wide range of media, including photos and HD video
- Create and schedule content in sequences, campaigns and timelines
- Manage multiple displays from your computer or mobile device
- Check your displays from anywhere you can get online
- Integrate apps like weather, dropbox, social media and more
- Multiple solutions available to fit your budget and needs

DIGITAL SIGNAGE BY **WORKSPACE DIGITAL**

Digital signage and content can be used for a variety of purposes. With a growing number of cloud based solutions and flexibility in digital media players, you now have a number of options available. Workspace Digital can help you identify the right combination of hardware, software and content to meet your needs, budget and objectives.

WORKSPACE DIGITAL WIRELESS BOARDROOM

Our wireless conference room switcher features a clean look, lower price point and dependable functionality for switching between inputs and connecting to your display.

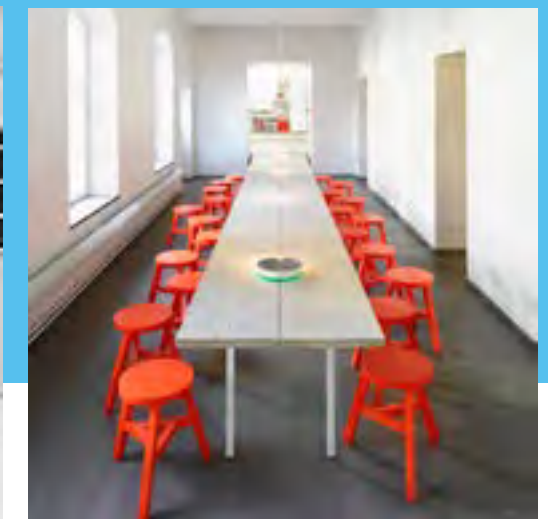

- Programmable for multiple connectivity types (HDMI, VGA, Microsoft Wireless Display, Digital Content, Video Conferencing, etc.)
- iPad controller featuring wireless charging desk or wall mount
- Sleek, clean and professional look
- Customizable buttons, branding and instructions designed for your room

EVOKO MINTO

WIRELESS CONFERENCE SPEAKERPHONE

Welcome to a new era in phone-conferencing.

Evoko Minto is a dependable conference speakerphone that operates smoothly with your mobile phone, tablet or laptop. Working either through Bluetooth or cable, it takes only seconds to connect turning green when the call is active and red when it is muted allowing you to speak freely.

- Designed by multiple award-winning Swedish designers
- Four directive microphones for state of the art echo cancellation, noise reduction and speech enhancement
- Plug it in via USB or enjoy 8 hours of active talking time via battery power
- Patented sound-improvement software can easily cover rooms of up to 20 people
- Quickly mute a call by waving your hand over the speaker
- Connect with Bluetooth or cable, and control from your own device
- LED lights communicate status with ease

EVOKO LISO

NEXT GENERATION ROOM MANAGER

Evoko Liso allows you to book, end and extend a meeting with your favorite digital calendar, or directly on the screen using your fingertip. It allows you to change information about the meeting and displays the relevant information.

Make Meetings Even Smoother

No more double bookings, confusion and interrupted meetings.

Bright and Helpful

Book, end or extend a meeting directly from the clock or use the calendar to search for other rooms based on availability, size and equipment.

Analytical and Efficient

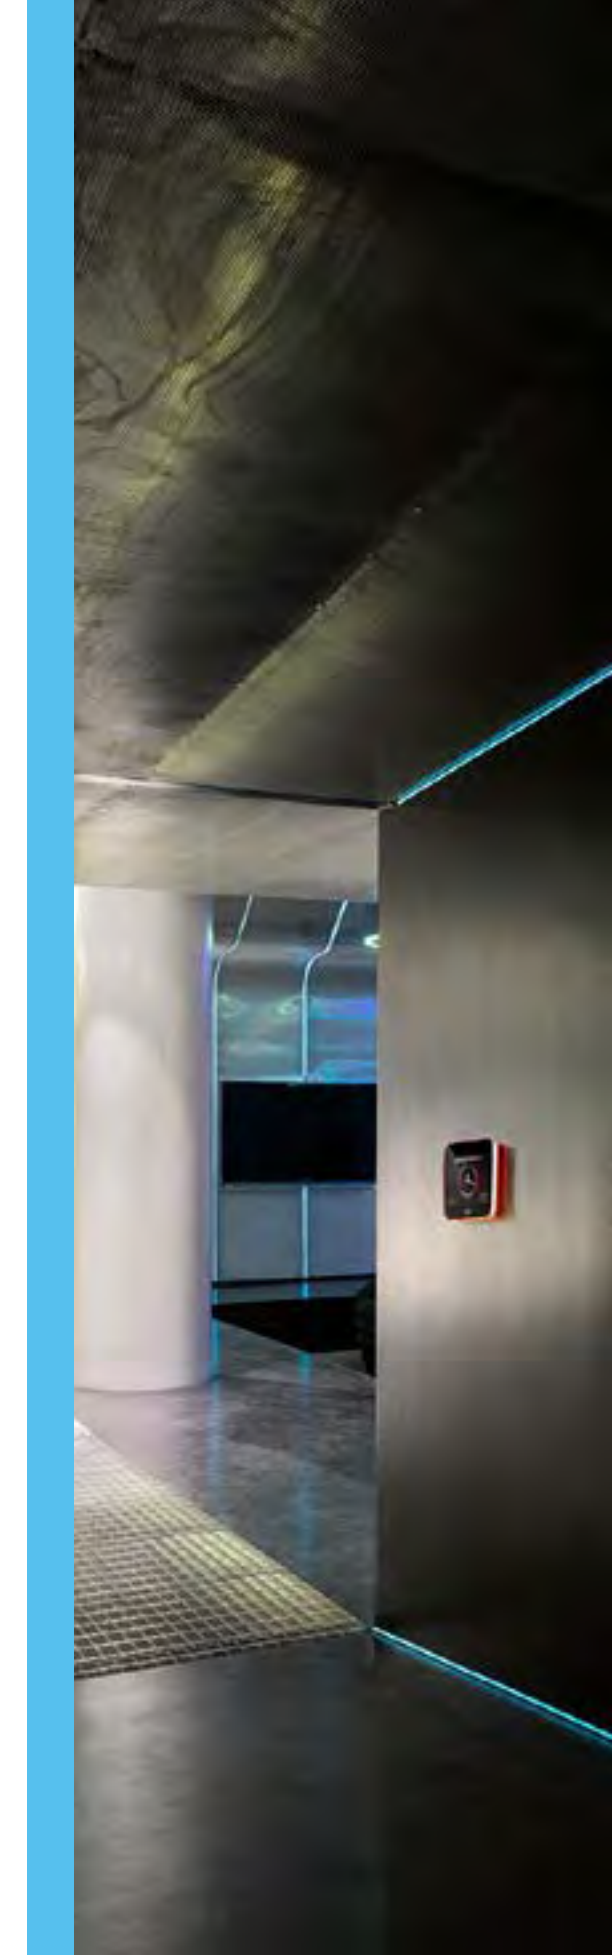

Extensive multi-site management options with permission control and real-time monitoring of the units.

Open and Interactive

Open API integrates smoothly with other 3rd party systems.

Simple and Beautiful

It's easy to install and a true delight to look at outside every meeting room. So smooth, helpful and bright. Your next meeting is just a fingertip away.

Work Better with Simple Technology to Help Save you Time

Upgrade your workplace with beautiful displays at the entrance of your meeting rooms. Get access to your meeting rooms from anywhere, at anytime. Manage your meetings and room bookings across your entire office.

- Display availability status of the meeting room
- Display information about the space and upcoming events
- Book rooms right from the meeting room display
- Browse information about other meeting rooms around you
- Integrates with sensors to provide room occupancy detection

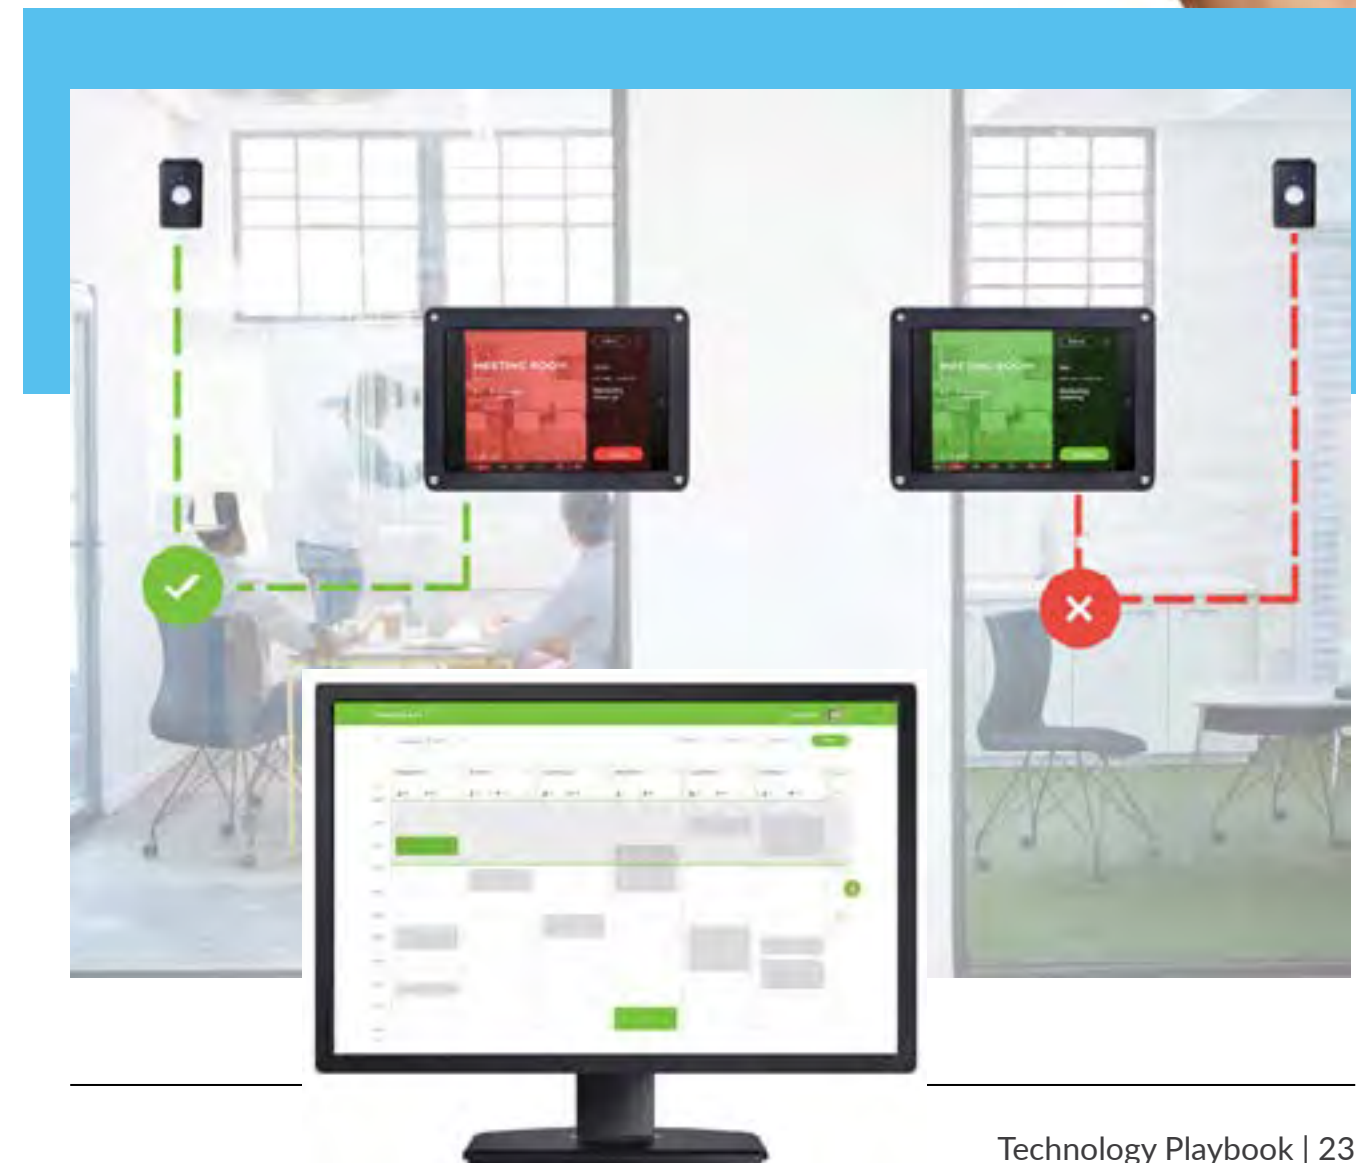

WORKSCAPE

SIMPLE MEETING ROOM BOOKING AND MANAGEMENT

Painless room booking at your fingertips. Book from room displays, web, mobile, or your calendar. Make room booking a breeze and save precious time.

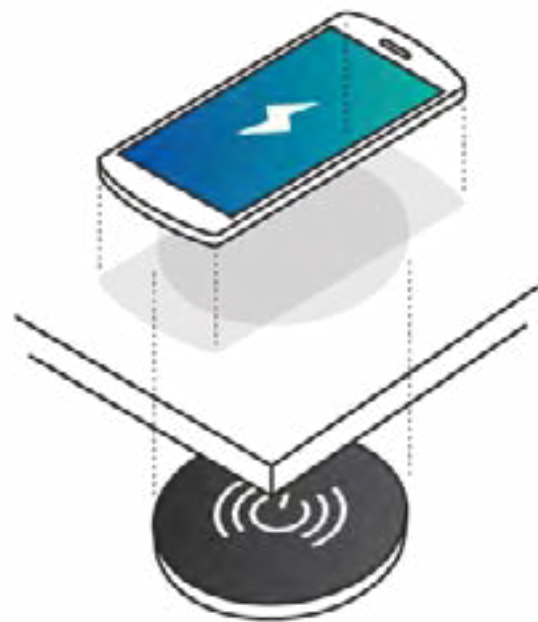

Focus your time on what matters. Workscape manages all your rooms from one simple dashboard. Understand your rooms with analytics and identify problem areas. Sensors automatically detect room usage.

WIRELESS CHARGING

Seamless installation. Simple to use. Completely reliable. ChargeSpot changes the way people access power with wireless charging. No more raceways, no more grommets and no more ugly wires. ChargeSpot is the smartest way to add power in any commercial interior.

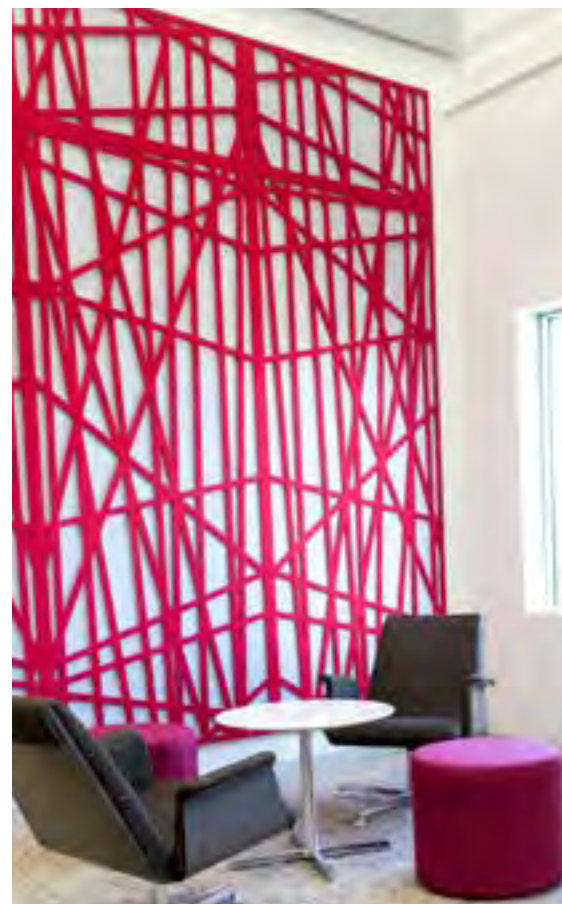

- Simple to use
- Easy installation
- 2-amp fast charging
- Works with any phone
- Tablet charging
- Allows employees to keep phones charged no matter where they are working from
- Great way to modernize your office and to attract/retain employees

SOUND MANAGEMENT SOLUTIONS

Workspace Digital offers a variety of engineered solutions designed to absorb, block and control sound through a comprehensive understanding of architectural acoustics.

Product lines vary amongst Sound Masking Systems, Digital Fabric Panels, Stretch Walls Acoustics, HVAC Industrial Noise Control and Ceiling Panels to control noise.

Sound Masking

For both closed plan and open plan offices, sound masking systems can create a comfortable, distraction-free environment that is also safe for the privacy concerns of both your clients and employees.

Panels and Clouds

From wall, ceiling and tack panels to ceiling clouds, digital fabric panels to stretch wall acoustics, we can help you identify the right perfect solution for your space. We will also show you how these products can be used aesthetically and to promote your work culture.

Additional Solutions

We work with the industry's leading sound management vendors to offer a full range of solutions including acoustical blinds, industrial noise control, sound barriers, isolation and more.

WORKSPACE DIGITAL

FULL SERVICE TECHNOLOGY INTEGRATION

In addition to the solutions featured in this playbook, Workspace Digital is proud to offer a complete range of custom products and services to fit the needs of any room or client.

From simple room technology packages to designing fully immersive meeting room systems, BOS and Workspace Digital provide a single source for all of your furniture and technology needs.

Workspace Digital also offers consultation and design services, creating custom solutions for the most complex working environments.
